white teeth now

ENA WHITE SYSTEM

The tooth whitening performed in this practice is a painless effective treatment that eliminates stains due to smoking, coffee and medication giving you a new bright, white smile

CASE BEFORE AND AFTER THE TREATMENT

Initial Case

Result

Professional teeth whitening is performed under the supervision of the dentist, warranting quick and safe results. In some cases, it is advisable to carry a bleaching maintenance by using a proper kit at home, which is supplied by the dentist with all the indication for its use.
